

PRATO PREP

Wooden surfaces preparation cleaner
Fast drying

Prato Prep is designed for the cleaning of untreated wooden surfaces before the application of Prato-Verde products. It helps remove microscopic dust particles after sanding, reduces tannins, and enhances colour intensity. Prato Prep can also be used for tool cleaning.

Drying Time	1 hour
Available Sizes	946 ml
Applications	Interior: Ideal for deep cleaning following the sanding of floors, stairs, furniture, kitchen cabinets, vanities, countertops, tables, and any other oiled wood surfaces.
Surface Types	Raw wood (untreated)
Composition	Aliphatic solvent.
COV	765 g/L
Origin	Canada
Disposal of accessories and residues	Wipe off any liquid residue before recycling this container. Consult your municipality for proper disposal of any remaining product.
Storage and Shelf Life	Keep the product in a sealed container at a temperature between 10°C and 25°C for storage. Under these conditions, the product will maintain its quality for at least 5 years.
Guarantee	Guarantee: Prato-Verde guarantees the quality of its products. They conform to the description provided in the technical data sheets and on the labels suitable for the intended use, in accordance with the instructions written by the company. However, since the manufacturer has no control over the circumstances, methods, and conditions of use, this guarantee only covers the high quality of Prato-Verde products.

Technical Specifications Preparation

1. Apply at a temperature above 15 °C.
2. Ensure the wood is free from any previous finish and meticulously sanded.
3. Dust off using a vacuum cleaner.

Technical Specifications Application

1. Lightly dampen a cotton cloth with PRATO PREP.
2. Clean the surface to be treated, ensuring thorough coverage to avoid colour discrepancies when applying a tinted oil.
3. Allow the wood to dry for 1 hour before applying a new coating.
